

Pitch Deck

InfashionAI

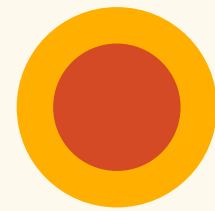

Empowering small fashion brands one picture at a time

Problem

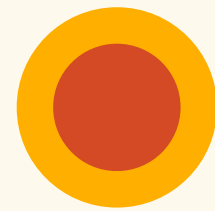

Small scale businesses struggle to compete in fashion industry

- Only 35% can survive the long run

Low Marketing and Visibility levels

- Lack of knowledge & recourses

Professional campaign production is expensive and time-consuming

- Traditional photoshoot costs a lot and produces few assets

Problem

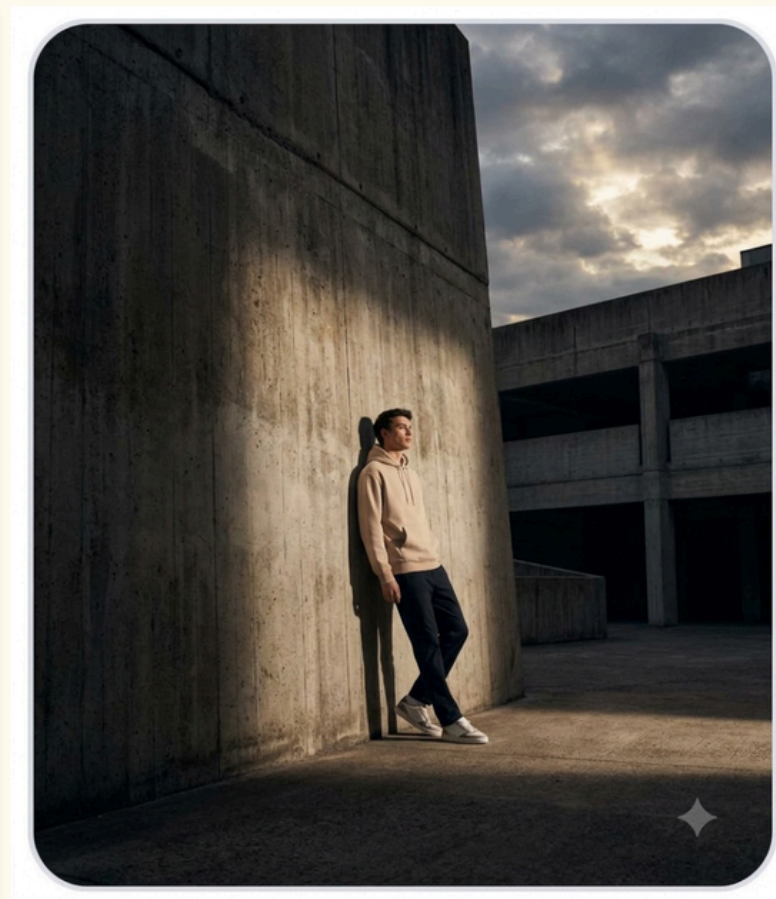

Can common AIs solve this problem?

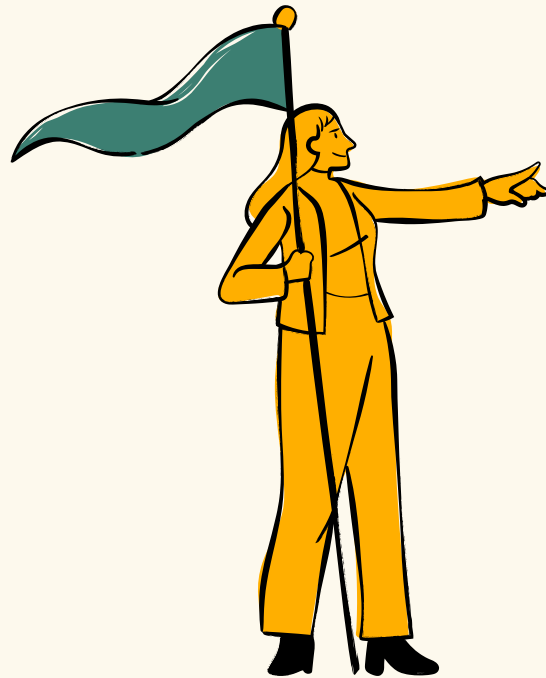

A young man wearing the uploaded outfit, leaning against a concrete wall in an urban environment, moody lighting, professional fashion photography. Generate a few different variations of images.

Problem

- **Inconsistent, limited** assets and customization
- **52%** of women and **41%** of men in the US report not being OK with synthetic humans

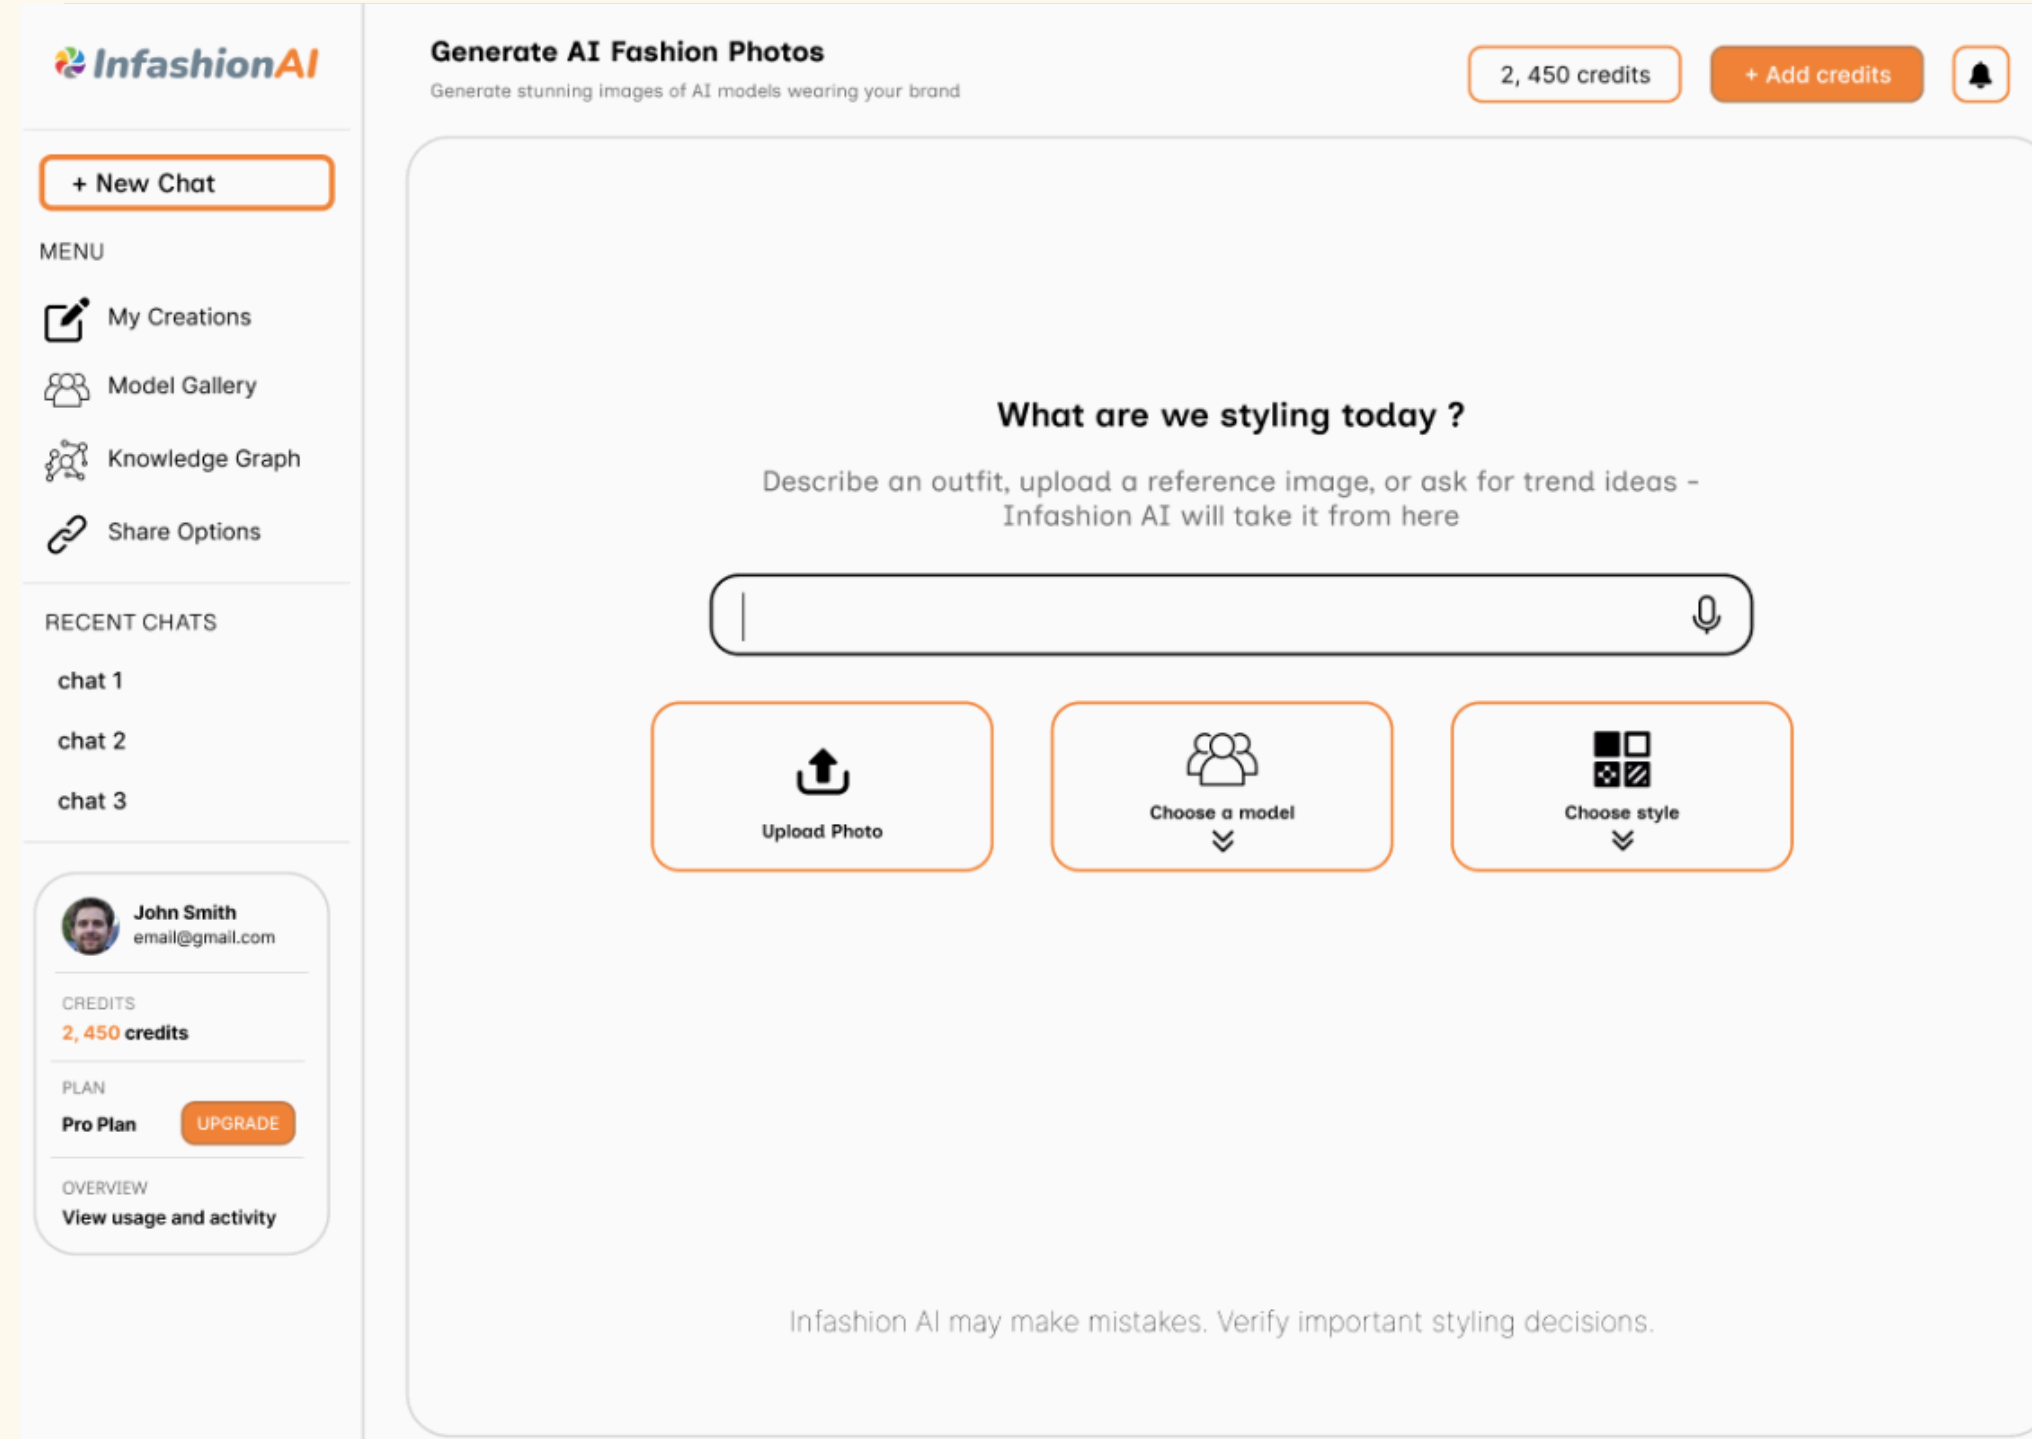

Vision

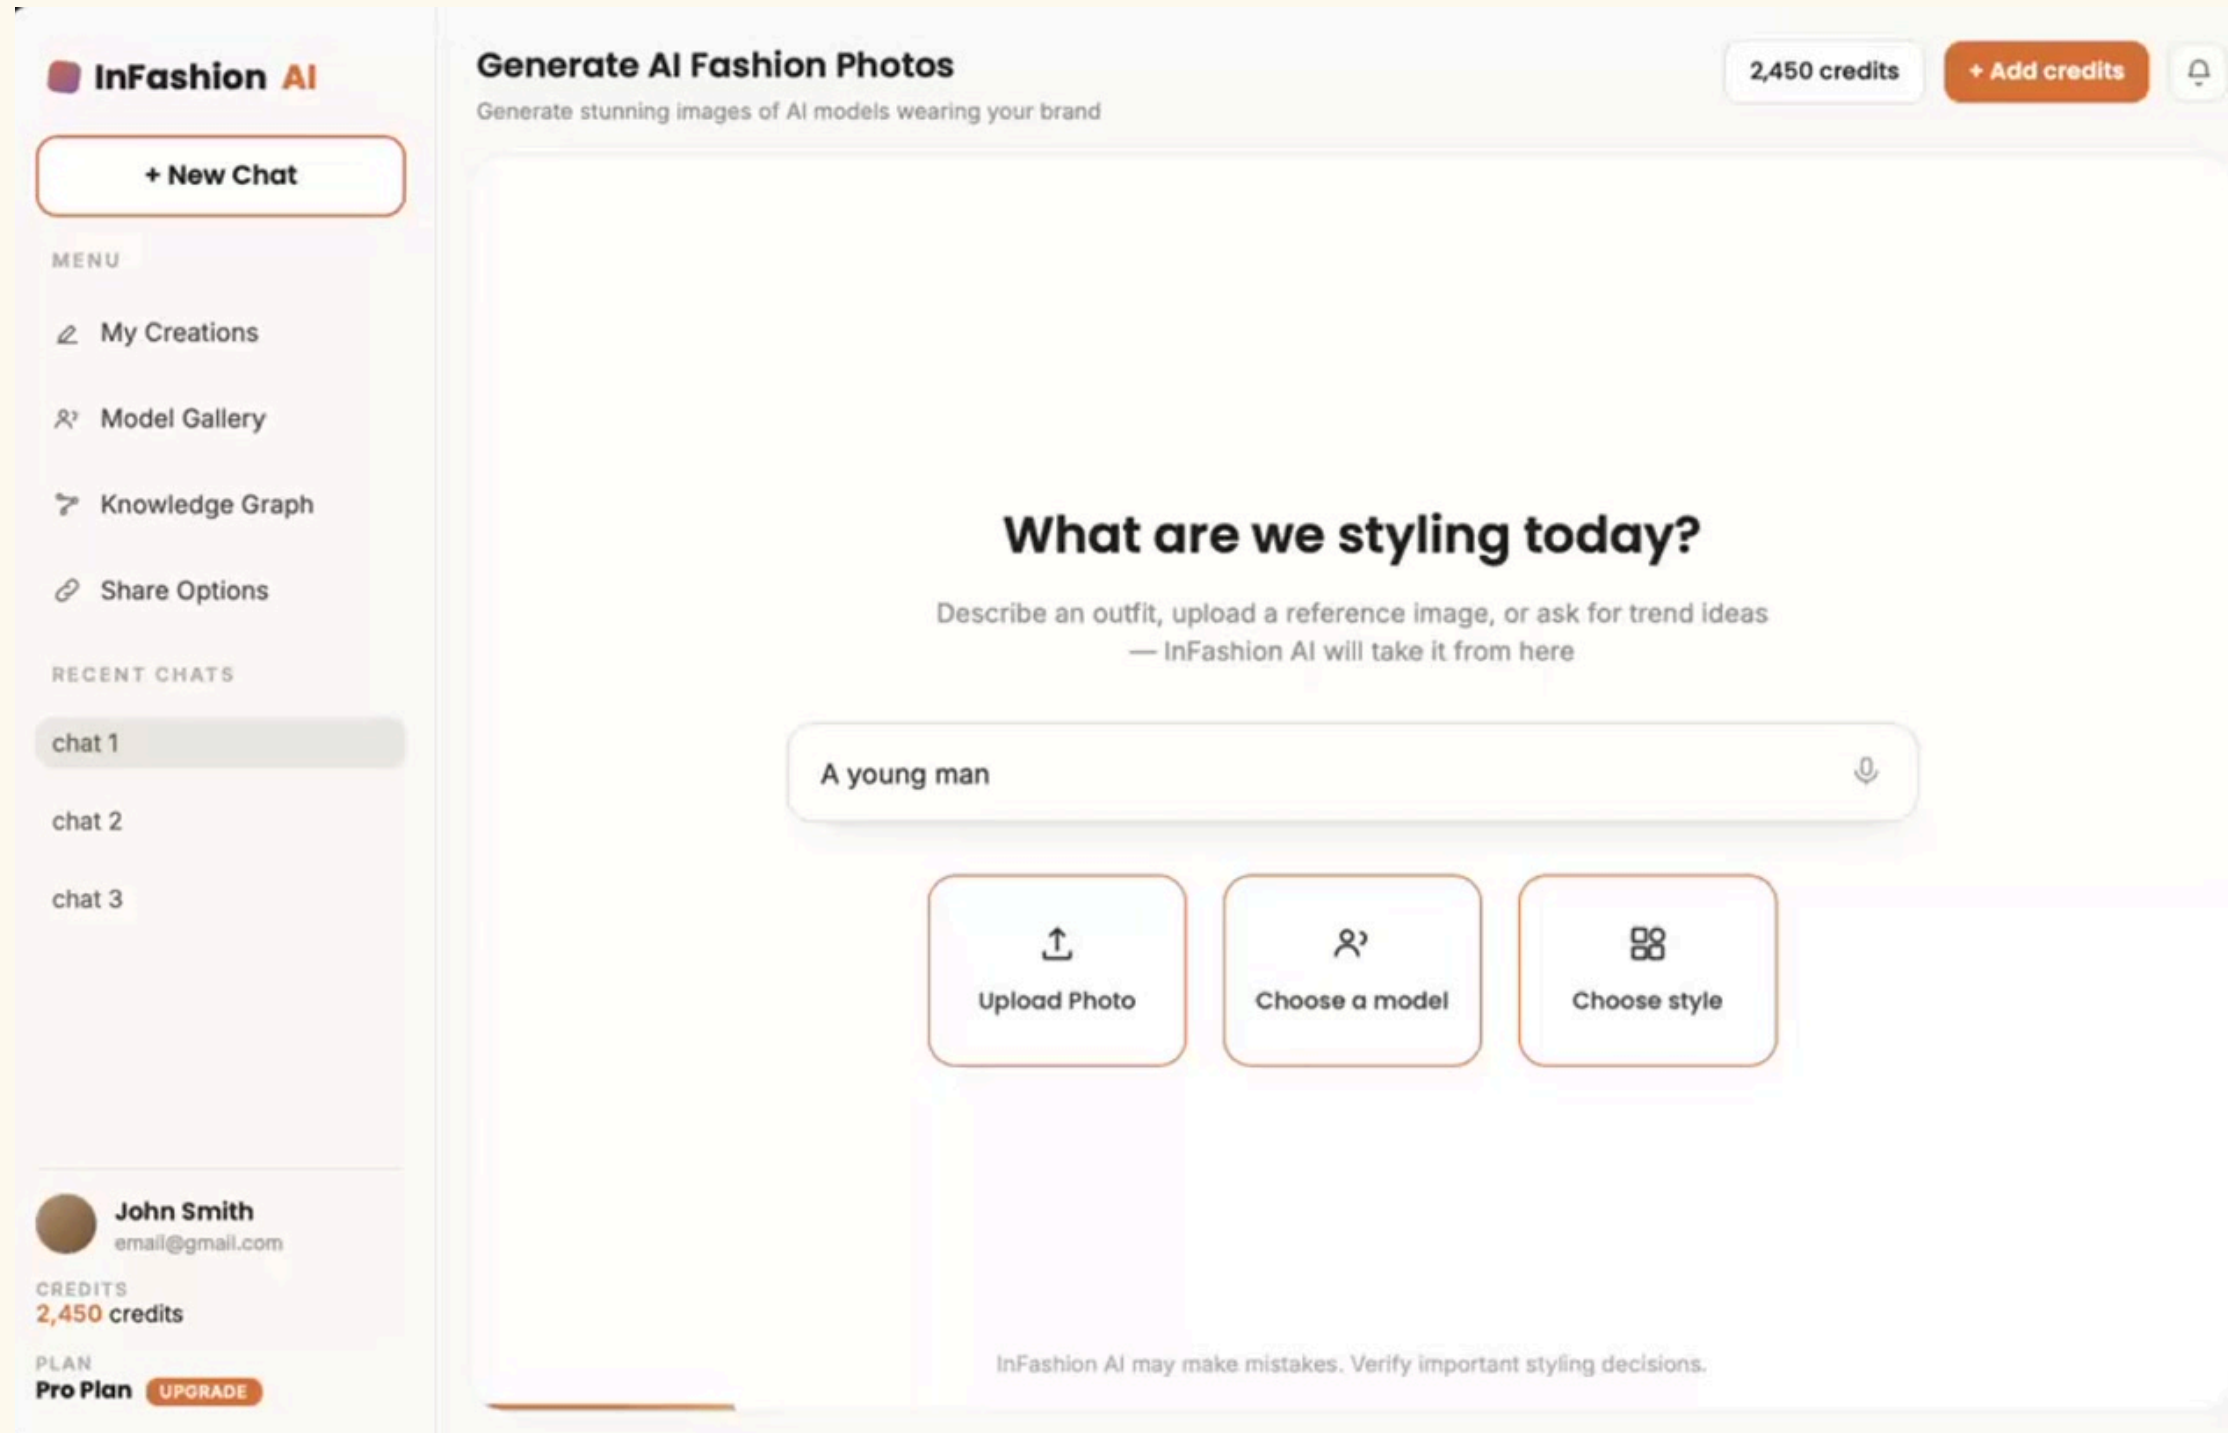

Help small scale businesses with their digital marketing needs

- Make building a fashion business more accessible
